

BRENDAN J. CLARK, PH.D.

✉ bjc328@cornell.edu  [bjc204.github.io](https://github.com/bjc204) **in** <https://www.linkedin.com/in/brendan-clark-800/>

SUMMARY

Climate scientist with expertise in Earth system modeling, scientific computing, and data-driven analysis. Experience leading collaborative research projects, developing scalable computational workflows, and publishing high-impact scientific research. Passionate about using my skills to help solve pressing environmental issues.

WORK & RESEARCH EXPERIENCE

Research Associate

Cornell University

 March 2025 - present  Ithaca, NY

- Leveraging advanced statistical, machine learning, and process-based modeling to assess future impacts to tree growth
- Collaborating with CarbonPlan doing statistical downscaling of climate model simulations

Research Assistant

Rutgers University

 August 2020 – January 2025  New Brunswick, NJ

- Used the Community Earth System Model to assess impacts to global food production and nutritional quality under climate change
- Led cross-disciplinary research teams
- Awarded four travel grants to present findings

Undergraduate Research Assistant

University of Massachusetts

 August 2018 – May 2020  Amherst, MA

- Used gas chromatography to analyze trace gas measurements from shale samples to determine greenhouse gas emissions from fracking
- Designed and administered a survey to assess how GIS is being taught by geocomputation instructors

EDUCATION

Ph.D. in Atmospheric Science

Rutgers University

 November 2022 - January 2025

M.Sc. in Atmospheric Science

Rutgers University

 August 2020 - November 2022

B.Sc. in Environmental Science

University of Massachusetts

 August 2016 - May 2020

INTERESTS

TECHNICAL SKILLS

Python					
Version control (git)					
Shell scripting					
Cloud computing					
R					

Other Programming & Software

HTML	Linux	Machine learning
JavaScript	Statsmodels	Xarray

BROADER SKILL SET

Communication	Problem solving	
Adaptability	Creativity	Teamwork
