

BRENDAN J. CLARK, PH.D.

✉ bjc328@cornell.edu  <https://bjc204.github.io/>  <https://www.linkedin.com/in/brendan-clark-800/>

SUMMARY

Climate scientist with expertise in Earth system modeling, high-performance computing, statistical analysis, and machine learning. Experienced in collaborative research leadership and publishing high-impact scientific studies. Passionate about using data-driven science to help solve pressing environmental challenges.

WORK & RESEARCH EXPERIENCE

Research Associate

Cornell University

 March 2025 - present  Ithaca, NY

- Leveraging advanced statistical, machine learning, and process-based modeling to assess future impacts to tree growth
- Collaborating with CarbonPlan doing statistical downscaling of climate model simulations

Research Assistant

Rutgers University

 August 2020 – January 2025  New Brunswick, NJ

- Used the Community Earth System Model to assess impacts to global food production and nutritional quality under climate change
- Led cross-disciplinary research teams
- Awarded four travel grants to present findings

Undergraduate Research Assistant

University of Massachusetts

 August 2018 – May 2020  Amherst, MA

- Used gas chromatography to analyze trace gas measurements from shale samples to determine greenhouse gas emissions from fracking
- Designed and administered a survey to assess how GIS is being taught by geocomputation instructors

EDUCATION

Ph.D. in Atmospheric Science
Rutgers University

 November 2022 - January 2025

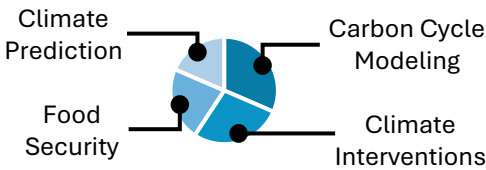

M.Sc. in Atmospheric Science
Rutgers University

 August 2020 - November 2022

B.Sc. in Environmental Science
University of Massachusetts

 August 2016 - May 2020

INTERESTS

TECHNICAL SKILLS

Python					
Version control (git)					
Shell scripting					
AI/ML					
Cloud computing					

Other Programming & Software

HTML	Linux	MATLAB	Fortran
R	JavaScript	Xarray	AWS

BROADER SKILL SET

Communication	Problem solving	
Adaptability	Creativity	Teamwork
